Fire Brigades Union

Firefighters have worked to a pay formula unchanged since the 1970's.

Despite having to train for 4 years to qualify Firefighters are not recognised as having the skills they use every day to save life, rescue people and deal with all manner of incidents from train crashes and road accidents, to terrorist acts and environmental tragedies.

Please Support Fair Pay For Firefighters

I believe our firefighters should be recognised for the skill they have and dedication they show serving the public. I support their claim for a fair wage.
